

Can the Netherlands' solar sector be rebuilt?

The Netherlands' solar sector is not characterised by its size and can only be rebuilt by relying on European collaboration. The scenario analysis demonstrates that a subsidy of about 5 cents/Wp is required for European-made PV panels to compete with other global PV manufacturers.

Are photovoltaic modules tax-free?

Only tax-free prices for photovoltaic modules are shown. The prices stated reflect the average offer prices in retail and on the European spot market (customs cleared).

Is Amsterdam a good place to invest?

Companies like Adyen, ASML, Marel and Prosus are proof of Amsterdam's appeal to multinationals, thanks to the access to global institutional investors that the Dutch capital market offers. The Amsterdam market is equally attractive to domestic small and mid sized companies.

Who supervises the financial markets in the Netherlands?

Dutch market financial supervision is carried out by: The Netherlands Authority for the Financial Markets (AFM), which supervises the conduct of the financial markets. A single Euronext Rule Book governs trading on all Euronext Securities and Derivatives Markets. It contains both harmonised and non-harmonised, or local, rules.
