

What is the best battery charger for camping?

If you're camping, wrap them in your clothes or even keep them in your sleeping bag so they stay warm. One of the most innovative bits of outdoor kit we've seen recently, The Charge AnyWay from GP Batteries is a 2-in-1 battery charger and power bank. It comes with 4 x nifty RecyKo+ rechargeable AA batteries.

Should I buy a camping power pack?

If you plan on spending a decent amount of time camping without a mains hookup, you may want to invest in a camping power pack. These are essentially large lithium batteries which can store electricity and generate AC and/or DC power to power your electrical camping gear.

How much battery do you need for a camping trip?

As a general rule of thumb, for an overnight camping trip where you need to charge small devices, a 25 to 30Wh charger is enough. However, if you intend to use bigger items such as DSLR cameras or fans, a battery capacity of about 200 to 300Wh is enough.

How do you charge a camping power pack?

The best camping power packs can be trickle charged using solar panels and therefore allow you to essentially live off-grid for many days and weeks at a time if the sun is shining reasonably brightly. Of course you can also charge a power pack directly from the mains or your car battery if required.

What is a camping power pack?

These are essentially large lithium batteries which can store electricity and generate AC and/or DC power to power your electrical camping gear. The best camping power packs can be trickle charged using solar panels and therefore allow you to essentially live off-grid for many days and weeks at a time if the sun is shining reasonably brightly.

What is the cheapest power bank for backpacking?

The cheapest power bank we have found for backpacking, the Miady is sold as a two-pack. During our tests, its overall performance was not as strong as some of the other battery packs we looked at, but it's hard to beat its price point.
