

Battery production at the Buenos Aires plant

Where will lithium batteries be made in Buenos Aires?

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

Is YPF lithium launching a lithium battery project in Argentina?

The battery project is linked to another, more ambitious one, that of YPF Lithium, YPF's business unit that intends to compete in the exploration and production of lithium carbonate in northern Argentina.

Will Argentina buy lithium from US company Livent?

Argentina will buy locally-produced lithium from US company Livent Corp to produce cells and batteries in a new plant set to start operating in September. Argentina will buy locally-produced lithium from US company Livent Corp to produce cells and batteries in a new plant set to start operating in September, the country's Mining Secretariat said.

Does Y-TEC sell lithium in Argentina?

In the case of lithium, Y-TEC signed a contract with American company Livent, which extracts the mineral in Catamarca and, for the first time, sold part of its production in Argentina. According to Salvarezza, for industrialization to grow in scale, part of the production ought to be sold on the local market.

How many batteries can a battery plant produce a year?

The plant's annual manufacturing capacity will be 13 MWh, equivalent to 1,000 batteries for stationary energy storage of renewable energy, or around 50 batteries for electric buses.

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

Buenos Aires -- YPF Tec, the technology arm of Argentina's majority state-owned energy company YPF (YPF), has announced that its lithium battery factory will begin operations in April, and that it has struck a deal with ...

Battery production at the Buenos Aires plant

Buenos Aires -- Last week, Argentina's President Alberto Fernández visited the first Argentine lithium cells and batteries manufacturing plant belonging to Y-TEC, a ...
