High-Efficiency LED Lighting: This 12V 9m 100W solar street light features a high luminous efficiency of 100 LM/W, ensuring bright and energy-efficient lighting.

Next month, I'm releasing my solar street light battery calculation Excel tool. Drop a comment if you want early access! Remember - these calculations aren't just numbers on paper. They're the difference between a street being lit all night or going dark when people need it most. I've learned most of this the hard way, so you don't have to!
