

Where can I buy solar panels?

Buy PV Direct supply most major panel manufacturers including Perlight Solar and Jinko, inverter and battery storage systems including Growatt and Solax and EV Charging systems including Zappi. Project EV and MyEnergi. We supply premium quality solar products for residential, commercial, industrial and utility projects nationwide.

Are cheap solar panels a good idea?

Pros of cheap solar panels: Sustainability: Cheap solar panels still help reduce residential carbon emissions and make your home greener. Reduced energy bills: Installing cheap solar panels can help you save anywhere between £440-£1,005 on electricity bills, increase your home value, and lower your environmental impact.

How much do solar panels cost?

The average domestic solar panel system costs around £7,000, including installation costs, according to the Energy Saving Trust. However, solar panel costs can vary depending on several factors:

Do you offer solar panels for sale in the UK?

Since 2010, our friendly UK team have helped tens of thousands of people install the right Solar PV system, and we are keen to support you today and offer PV solar panels for sale. PV Solar Panels generate emission-free, clean electricity every day of the year in the UK and can vastly reduce your energy bills.

Why are cheap solar panels so expensive?

The overall construction of cheap solar panels is poor. This includes the use of low-grade ethylene vinyl acetate (EVA) which degrades over time and results in lower energy production. Also, the back of the cheapest solar panels is often made from Tedlar (polyvinyl fluoride film trademark), which is prone to degradation and deterioration.

How much can you save with solar panels?

How much you can save on your energy bills with solar panels depends on a few factors, including: the size of your solar panel system, the amount of energy your household normally uses, and the cost of electricity in your area. As sunlight is a free resource, a typical solar panel system can save you around 50-70% on your electricity bills.
