

What is a GivEnergy Battery Cabinet?

The battery cabinet. Each battery cabinet contains 69kWh of batteries. A display of each individual pack and cell status - for full visibility plus extra control and safety. The GivEnergy PCS - the computer part of your SME battery system. The DC cabinet - installed whenever multiple battery racks are required.

How many battery cabinet units can be installed together?

Up to 4 battery cabinet units can be installed together, offering your SME up to 276kWh of storage. Coupled with our 30, 50 or 100kW PCS, the SME battery system can comfortably power your whole site. Our built-in bus bar system allows batteries to simply slide into place - no additional DC or data connections needed.

Why should you buy an SME battery system from GivEnergy?

They're cobalt-free, high-capacity, and offer maximum safety. When you buy an SME battery system from GivEnergy, you're also getting advanced data monitoring services. All data is reported regularly to the GivEnergy cloud. You get: Mode selection and timed control are available via the web app, enabling a full remote monitoring platform.

Our large-scale commercial battery rack can comfortably meet your energy needs - keeping you running at less cost, with less carbon emissions, and with less reliance on the grid.

The standardized cabinet solution of BETE communication outdoor base station is a brand-new site installation scheme and product. It inherits the accommodation characteristics of traditional computer room and ...

Furthermore, the proposed charging configuration can recharge the battery of the inactive state UAV-BS to increase the state of charge of two 16 Ampere hour batteries to 80 % ...
