Which fire extinguishers are suitable for lithium-ion battery fires?

Fire Queen Limited can supply fire extinguishers for tackling Lithium-Ion battery fires. These high performance Lith-Ex fire extinguishers contain AVD (Aqueous Vermiculite Dispersion) compound - a revolutionary fire extinguishing agent & are designed to target high risk fires of a limited size.

Which fire extinguishing agent is used in a lithium ion traction battery?

German motor vehicle inspection association (DEKRA) reported several kinds of water-based fire-extinguishing agents such as water, F-500 and a gelling agent used in extinguishing lithium-ion traction batteries fires. The flame of power LIBs was rapidly extinguished by 1% F-500 within merely 7 s.

Which fire extinguishing agent has a high heat capacity?

A high heat capacity is most essential characterization parameter for reducing the temperature of battery. Obviously, water-based fire-extinguishing agents possess excellent cooling capacity. Among water-based fire-extinguishing agents, the durable heat capacity of F-500 is highest, followed by water and foams.

What makes a fire-extinguishing agent suitable for LIBS fire?

Herein, the special mechanisms and characteristics for LIBs fire and the corresponding design principles for LIBs fire-extinguishing agent were introduced. It is revealed that a fire-extinguishing agent developed for LIBs fire will most likely need a high heat capacity, high wetting, low viscosity and low electrical conductivity.

Does microcapsule extinguishing agent suppress LFP battery fires?

On this basis, the micellization behaviors and suppression mechanism of the F-500 microcapsule extinguishing agent on LFP battery fires are deeply investigated.

Does fire extinguishing agent affect LFP battery fire?

The effects of five fire extinguishing agents on 243 Ah LFP battery fires were also compared. The extinguishing effect of the fire extinguishing agent on LFP battery fire is ranked as follows: 3 % F-500 > C 6 H 12 O > 6 % Fireice > water fine > HFC-227ea.
