

Is the drift V1 a good battery?

There is no denying that the Drift V1 is a fantastic addition to the UK leisure battery market, and these batteries won't be going anywhere soon - in fact, the Drift Pro just enables customers a much wider choice when it comes to selecting the right battery option to suit their application.

How many drift LiFePO4 batteries are there in the UK?

There is no denying that our Drift LiFePO4 batteries have made waves across the UK Leisure Battery market. Since launching the product 11 months ago, we've shipped over 3000 Drifts to customers across the UK - and that number doesn't look to be slowing down any time soon.

How much does a DRIFT Pro cost?

The development of the Drift PRO is all part of our quest to make Lithium affordable and accessible to customers on all budgets. In fact, our 12v 280ah Drift PRO retails at just £1099.

Is fogstar drift eco a good battery?

But the Fogstar Drift Eco battery goes a step further; the 7 part of the IP67 rating meaning that it can handle even immersion in water, up to 1 metre. That makes it an ideal for use as a marine battery, or indeed as a leisure battery used in some situation where extensive water splashing is possible. Maximum discharge of 250 Amps is great.

What makes the drift eco 305ah a good battery?

**Rugged IP67-Rated Housing:** Built to withstand the elements, this battery is dustproof and splash-proof for worry-free operation. **Compact Powerhouse:** Despite its impressive capacity, the Drift ECO 305Ah remains manageable at 28kg and a compact size of 270 (H) x 390 (L) x 190 (W).

Does the DRIFT Pro come with heating?

Similarly to our Drift V1, the new Drift PRO also comes with heating - allowing you to charge your battery below freezing, a feature of the Drift range that is incredibly useful for customers during UK winters. This moves us onto one of the most anticipated features of the Drift PRO, the Active Balancer.

The Fogstar Drift 628Ah, the world's largest 12V leisure battery. Ultimate off-grid power: Boasting a massive 8038Wh capacity and phenomenal cycle life (>8000 cycles), this battery is perfect ...

I've studied this type of battery (also studied electrical engineering at university, purchased a 300ah lithium drift for a large skoolie bus build, will probably purchase another) for a few years now, these Fogstar batteries are head & shoulders above the rest, they have all the best features at an outstandingly reasonable price, better build quality than the rest, much cheaper than the ...

The Fogstar Drift 12V 628Ah is the world's largest 12V LiFePO4 lithium leisure battery and the perfect choice as the heart of your leisure, marine, off-grid, or home energy storage system.

Fogstar Drift 305Ah 12V LiFePO4 Leisure Battery Off-Grid Battery Power with 4000+ cycles, built-in 250A JBD BMS, 6 year warranty, ideal for campervan, caravan, boats and solar: Amazon .uk: Business, Industry & Science ... ECO-WORTHY 2-Pack 12V 280Ah LiFePO4 Lithium Battery, 7168Wh Energy, 6000+ Deep Cycles Lithium Iron Phosphate, Support in ...

The Fogstar Drift 12v 230Ah lithium leisure battery comes with Grade A EVE cells, built-in JBD BMS, Bluetooth, a built in heater and 10 year warranty as standard - £719.99 (includes UK ...

The Fogstar Drift ECO 305Ah is your key to serious, cost-effective off-grid power. This heavyweight lithium battery boasts a massive 3904Wh capacity, making it ideal for powering even the most demanding applications. ... Fogstar Drift Eco 12V 305Ah LiFePO4 Battery Perfect for motor movers, caravans, marine, golf carts, home energy, and solar ...

Powerful and Long-lasting: Leveraging cutting-edge Lithium Iron Phosphate (LiFePO4) technology and Grade A EVE LiFePO4 cells, the Fogstar Drift 608Ah offers exceptional durability and a lifespan of up to 3,500 cycles. Versatile Powerhouse: A one-stop solution for powering motor movers, caravans, marine applications, ho

The Drift ECO lithium battery boasts a fantastic 4,019Wh capacity, making it ideal for powering even the most demanding applications. Whether you" View full details £899.99 | / Drift ECO 628Ah 12V Leisure Battery Fogstar Drift. The ...

Fogstar Drift 100Ah 12V LiFePO4 Leisure Battery Off-Grid Battery Power with 3000+ cycles, built-in 100A JBD BMS, 6 year warranty, ideal for campervan, caravan, boats and solar: Amazon .uk: Business, Industry & Science ... 12V 100Ah LiFePO4 Lithium Battery with 100A BMS, 1280Wh Output Power, 4000+ Deep Cycles - Ideal for RV, Solar, Marine ...

A new era of high-tech leisure batteries. Introducing the Drift Pro 12V 300Ah LiFePO4 Leisure Battery, designed by our multi-award winning team here at Fogstar. Grade A EVE LiFePO4 Cells 3840Wh of pure power 300A JBD BMS Plug and play Victron integration RS485 and CAN comms ports 2A JK/Drift Pro Active Balancer Metal c

Our Fogstar Drift Lithium Leisure Battery collection is designed by our multi-award winning team here at Fogstar UK. Need a reliable battery at a great price? The Drift ECO is your answer. It ...

High-capacity energy: 300Ah battery perfect for powering motor movers, caravans, boats, home storage, and solar panels. Inverter compatibility: 250A BMS supports inverters up to 3000W. Premium features: Includes Grade A EVE cells, JBD BMS, Bluetooth, built-in heater, and a 10-year warranty. Surprisingly lightweight:

Weighs only 26kg with convenient handles for easy ...

A new era of high-tech leisure batteries. Introducing the Drift Pro 12V 460Ah LiFePO4 Leisure Battery, designed by our multi-award winning team here at Fogstar. Grade A EVE LiFePO4 Cells 5888Wh of pure power 300A JBD BMS Plug and play Victron integration RS485 and CAN comms ports 2A JK/Drift Pro Active Balancer Metal c

The Fogstar Drift ECO 314Ah is your key to serious, cost-effective off-grid power. This heavyweight lithium battery boasts a massive 4019Wh capacity, making it ideal for powering ...

All batteries come with the Fogstar Drift App, enabling you to access real-time data about your Lithium Leisure Battery at all times. The Fogstar Drift app is free to download on both ...
