

Companies like Nanotech Energy and Skeleton Technologies are leading the development of graphene-enhanced solutions for EVs and grid storage. Meanwhile, tech ...

Global mining giant Rio Tinto has taken a punt on Brisbane-based battery company Graphene Manufacturing Group, signing a \$6 million deal to develop and use its next-generation graphene aluminium ...

Lyten unveils the world's first Lithium-Sulfur 18650 battery cell and is named a "Top 10 New Battery Company of 2022" by NAATBatt. In 4Q22 Lyten announces LytR(TM), a polyethylene ...

Founder and managing director of Graphene Manufacturing Group Craig Nicol said the company's graphene aluminium ion battery was a world-leading piece of technology ...

Brisbane, Queensland, Australia--(Newsfile Corp. - August 6, 2024) - Graphene Manufacturing Group Ltd. (TSXV: GMG) ("GMG" or the "Company") is pleased to provide the ...

The purpose of this acquisition was access to Carbon Allotropes" technology used in producing high-purity graphene. The company also acquired 2D Quantum, a graphene ...

The technology enabler is the company's invention of 3D graphene." Lyten, a Silicon Valley materials company, aims to displace the incumbent lithium-ion (Li-ion) cell ...

The company also produces graphene additives for use by materials manufacturers in applications such as concrete, coatings, plastics and energy storage. Talga has the Talphite ...

Companies around the globe are investing in graphene technology to develop batteries that are faster, more efficient, and longer-lasting than traditional lithium-ion batteries. ...

Explore 10 new graphene companies from 500+ new entrants, offering functionalized and green graphene, turbostratic graphene & more. ... The focus also extends to battery anode materials, ...

Vollebak is a clothing brand that uses advanced materials to make clothes more resilient, elastic and breathable. Founded in 2008, the company earned a place on our list of ...

Cutting-Edge Battery technology Countless markets are charged for a graphene revolution - with many eager to do so by harnessing our cutting-edge, American-made, super-safe battery products and research.

In energy, it could provide the next leap in battery technology, with the potential for faster charging, higher

capacity, and longer life cycles. In telecommunications, graphene ...

BRISBANE, Australia, Feb. 14, 2024 -- Graphene Manufacturing Group Ltd. (TSX-V: GMG) ("GMG" or the "Company") provides the latest progress update on its Graphene Aluminium-Ion ...

The graphene battery market is spread across North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa. Europe is the dominating market for the graphene ...

BRISBANE, QUEENSLAND, AUSTRALIA - December 22nd, 2021 - Graphene Manufacturing Group Ltd. (TSX-V:GMG; FRA:0GF) ("GMG" or the "Company") is ...
