

How to install solar panels?

Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5. Erect the scaffolding (this can be done by your supplier or by a company you organise) 6. The solar panel mounts will be installed 7. The professionals will install the solar panels 8.

How do solar panels work?

Solar panels, also known as photovoltaics (PV), harvest energy from the sun and convert it to electricity that can be used in the home. Energy from solar panels can be used to power a variety of things around a property, including immersion tanks to heat water, and charging electric vehicles.

How do I find a solar panel installer?

Use our Trusted Traders search tool to find a solar panel installer in your area. Some energy providers also install solar panels, and might offer alternative financing options. You can find out more about getting solar panels through an energy supplier. How can I ensure my solar panel installation goes well?

Should you hire a certified solar panel installer?

Your solar panel system installation should be quick, efficient, and minimally disruptive to your life and home. To make sure your panels go up without too much fuss - and are set up to generate the most electricity possible - you should hire an accredited, certified installer, like Sunsaver.

Are solar panels easy to install?

Installing solar panels is usually relatively quick and straightforward, but it's still worth getting to know all the ins and outs of how it happens. After all, considering how much solar panels cost, it makes sense to understand the process.

What can you do with solar energy?

Energy from solar panels can be used to power a variety of things around a property, including immersion tanks to heat water, and charging electric vehicles. The energy can also be stored in a battery, ideal to use when PV generation is low, or is exported back to the grid. Why install solar PV? The solar PV market is bigger than ever.
