

Can solar power save you money?

Solar electricity is a clean, renewable energy source. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK. That's the equivalent of driving 3,600 miles, or from London to Bristol 30 times. Export the electricity you can't use yourself and get paid for it.

What are the benefits of solar panels?

The benefits of solar panel include: boosting your other energy efficiency measures like heat pumps. You'll get extra bill and carbon savings by being able to use more of the electricity you've generated. You may be able to get financial support for solar panels through government schemes.

How do I get financial support for solar panels?

You may be able to get financial support for solar panels through government schemes. You can check eligibility through your energy supplier, local authority, or social housing provider. Alternatively, it may be possible to access green finance if you speak to your bank.

How does a solar panel subscription work?

There are two main types of solar panel subscription: You OWN the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee, which usually covers the solar panel and battery installation, repairs and maintenance.

Which solar panel is best for your home?

Monocrystalline panels are the most expensive and most efficient but are also the most common and comprise the best solar setup for home energy. Polycrystalline panels come in second and thin-film panels are the least efficient overall. Most solar panel manufacturers provide monocrystalline systems nowadays.

Can a home solar system save you money?

A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK. That's the equivalent of driving 3,600 miles, or from London to Bristol 30 times. Export the electricity you can't use yourself and get paid for it. The Smart Export Guarantee lets you sell extra electricity to the grid.
