

Can a battery pack be rebuilt?

Get your battery pack rebuilt with County Battery Services pack rebuilding service. Whether it is Ni-Cd, Ni-Mh or Lithium, we can repair and improve your battery packs to an upgraded standard by exchanging your internal cells to brand new quality battery cells of the same or higher capacity.

Should a battery pack be replaced?

If a relatively new pack has only one defective cell and a replacement is located, exchanging the affected cell makes sense. With an aged battery, however, it's best to replace all cells. Mixing new with old causes a cell mismatch that has a short life. In a well-matched battery pack all cells have similar capacities.

How do refurbished batteries work?

How we do it: We exchange all your battery's internal cell with brand new ones. A-grade battery cells used to recell your battery pack. Your refurbished batteries will look as good as brand new and will work in exactly the same way as it used to. We recell, refurb, and repair Lithium (Li-Ion), Ni-Mh and Ni-Cd battery packs.

Do you repair or refurb a battery pack?

We recell, refurb, and repair Lithium (Li-Ion), Ni-Mh and Ni-Cd battery packs. Our Battery Experts can rebuild and repair the battery pack to fit all popular brands such as Bosch, DEWALT, MAKITA, HITACHI, RYOBI, SnapOn and many more. Each refurbished or recycled pack comes with a 1-year warranty and is rebuilt to high standards. Easy to order online:

How do I get a new battery pack?

The simplest solution is to visit the equipment manufacturer's website to see if a replacement battery pack is available. Sometimes there isn't and, when there is, the prices can come as a shock. In my case, the equipment worked just fine and looked to have a good few more years of life in it -- a new battery would suffice.

Can a battery be repaired?

Batteries for power tools and other commercial devices can often be repaired by replacing one or all cells. Finding a NiCd and NiMH cell is relatively easy; locating an appropriate Li-ion cell is more difficult.
