

North Macedonia energy storage battery air transport capacity restrictions

Did North Macedonia change its energy regulations?

There were no major energy legislative changes, but North Macedonia continued to harmonize its energy regulations with the EU Energy Community's Third Energy Package (TEP). North Macedonia's state-owned power company was unbundled and partially privatized in the early 2000s.

Should North Macedonia transpose the security of gas supply and storage regulations?

North Macedonia should transpose the Security of Gas Supply and the Storage Regulations. North Macedonia achieved limited progress in the area of environment. The long-standing non-compliance with the National Emission Reduction Plan ceilings remains unaddressed. Emission abatement measures must be taken immediately to address this.

Does North Macedonia have a self-consumption scheme?

North Macedonia has implemented a self-consumption scheme in the form of net metering for households with installed capacity up to 6 kW and business up to 40 kW. The adoption of a Renewable Energy Law is crucial to facilitate the establishment of renewable energy communities in accordance with REDII requirements.

Does North Macedonia have a climate target?

North Macedonia has not defined the 2030 climate target in its national legislation, but has defined it in the NECP. The target is in line with the 2030 targets set by the Energy Community. There is no legal basis for the national inventory system.

Should North Macedonia adopt a long-term building renovation strategy?

The long-term buildings renovation strategy is still not finalized. North Macedonia should adopt the amendments of the Law on Energy Efficiency and update the specific targets required in Article 7, introduced previously in 2020.

What are customer protection measures in North Macedonia?

Customer protection measures are defined in line with Annex I of Directive 73/2009/EC. In 2022, North Macedonia adopted amendments to the Energy Law, partially transposing the TEN-E Regulation (EU) 347/2013. The gas network of North Macedonia is connected only to the Bulgarian gas system.
