

How to choose a smartphone for outdoor use?

Reliable GPS performance is key and some phones are equipped with outdoor-focused navigation tools. For outdoor enthusiasts, a rugged smartphone with a built-in thermal imaging camera can be a valuable tool. Infrared cameras to detect heat signatures and identify potential hazards or wildlife.

Are rugged outdoor phones worth it?

Now that most phones are waterproof and have long battery life, it's arguable that the dedicated rugged outdoor phone - such as the Motorola Defy Rugged Smartphone first reviewed by Chris Townsend in 2021 - is less important than it once was.

Which oukitel smartphone has the largest battery capacity?

Oukitel K13 Pro remains the outdoor smartphone with the largest battery capacity to be manufactured by Oukitel. The K13 Pro packs a 11000mAh battery, the largest we have ever seen on any smartphone. K13 Pro supports fast charging, with a charger of power rating 5V/3A, full power can be restored in 2 hours 20 minutes.

What is the best rugged phone for camping?

With MIL-STD and IP ratings against shocks, drops, dust, and water, these are the most durable phones for robust working conditions. Alongside smartphones, our team of expert reviewers have tested best rugged laptops and best rugged tablets for camping, hiking, and working on-site. The Nokia XR20 is our current choice for most people.

What should you look for in an outdoor phone?

Features to look for in an outdoor phone include a choice between face/fingerprint security (useful if wearing gloves), customisable shortcut buttons, quick access to camera, and a USB-C port for compatibility with other devices. Fast charging is also useful. Many phones now weigh over 200g.

Can a mobile phone withstand water immersion & dust exposure?

Rugged mobile phones with high IP ratings (Ingress Protection) can withstand water immersion and dust exposure. The most rugged phones need to be water-resistant and dust-resistant to withstand tough environments. The devices usually have an IP rating (Ingress Protection) that indicates how well a device can protect against water and dust.
