

How do I choose a photocell?

Simply filter by brand and other technical specifications to find what you're looking for. Choose a photocell for lighting control, a miniature photocell light, a wall-mounted photocell, or ceiling-mounted photocell. Automate outdoor lighting with CEF's photocells. Order today to enhance safety and convenience while reducing energy consumption.

Are photocell lights a good choice?

Photocell lights are convenient, energy-efficient and environmentally friendly. You'll find a wide selection of photocell lights and photocell gear available at CEF, from full photocell installation kits to replacement heads.

How do photocell lights work?

Photocell lights are a great solution. Photocell detectors are sensitive to changes in lighting levels and can switch lights on or off as needed. When light decreases at dusk, photocell lights will switch on, turning off when light increases again at dawn. Photocell lights are convenient, energy-efficient and environmentally friendly.

It taps into the power supply of a streetlight by connecting between the photocontrol and locking type receptacle of the luminaire. Power Tap with Photocell mounted on a Streetlight
