

Portable solar power system complete set

What are portable solar panels?

Portable solar panels come in a range of sizes and capacities, from compact units that can charge your smartphone or tablet, to larger panels capable of powering laptops or even small appliances. Many models feature built-in solar power banks, allowing you to store energy for use when the sun isn't shining.

What is a small Solar power system?

Each small solar power system is a complete kit that includes solar panels, inverter, batteries and the cables and fixings necessary to generate renewable energy. Our small solar panel kits are DIY but Sunstore can arrange professional installation for you if you prefer. This product has multiple variants.

What types of solar panels are available at Sunstore?

The range includes 1200W solar panel kits, 1800W solar panel kits, 2400W solar panel kits and 2700W solar panel kits. Each kit has been specially selected to deliver great value, reliable performance and the ease of installation and everyday use you're looking for. Sunstore can also install your 1kW to 3kW off-grid solar kit if required. Sale!

What is a high power solar panel kit?

High power solar panel kits for off-grid energy - suitable for remote properties, garden offices, sheds, outbuildings, workshops, sports pavillions, emergency power... the uses are endless. If you can't see exactly what you need please contact us - we can customise any kit to suit your requirements.

How do I choose a portable solar panel?

When choosing a portable solar panel, it's important to consider the device's efficiency, durability, and portability. Look for models with high-efficiency solar cells, which convert a higher percentage of sunlight into energy. Durable construction is also key, as your panel will likely be exposed to the elements.

What is a 1kW to 3KW solar panel kit?

These 1kW to 3kW solar panel kits deliver enough energy for a range of domestic applications such as holiday homes, cabins, workshops, remote offices, stables, summerhouses and other uses. The range includes 1200W solar panel kits, 1800W solar panel kits, 2400W solar panel kits and 2700W solar panel kits.
