

Will Infinity lithium support the San Jose's Lithium Project?

Infinity Lithium is well placed to provide battery grade lithium product to the large-scale battery plants from the proposed San Jose's production facility. Infinity and Extremadura New Energies are looking at all ways to promote the San Jose's Lithium Project using the highest standards of sustainability available.

Who owns the San Jose's Lithium Project?

Infinity Lithium subsidiary Extremadura New Energies maintains a 75% ownership interest in the San Jose's Lithium Project. The Project is located approximately 3 hours from Madrid and 3.5 hours from Lisbon accessible by dual lane highway.

Why is the San Jose's Lithium Project important?

The San Jose's Lithium Project provides substantial advantages in supplying the European market through the use of one of the few economically viable sources of lithium raw material in the EU and strategic alignment of downstream processing facilities.

How much money will Lyten invest in San Leandro & San Jose?

Lyten intends to invest up to \$20M in 2025 as part of an ongoing plan to expand the San Leandro and San Jose facilities to deliver up to 200 MWh per year, at full capacity, of US manufactured Lithium-Sulfur batteries. San Leandro commercial production is intended to begin in the second half of 2025.

Is Lyten acquiring Cuberg's San Leandro lithium-metal battery manufacturing facility?

SAN JOSE, Calif., Nov 13, 2024 - (BUSINESS WIRE) - Lyten, the supermaterial applications company and world leader in lithium-sulfur batteries, announced today that it will acquire Cuberg's San Leandro lithium-metal battery manufacturing facility and cell making equipment.

What are lithium stocks?

Lithium stocks are commodity stocks that have principal interests in the mining, refining and distribution of lithium. The companies included under the umbrella of lithium stocks may be involved in the production of other metals and minerals, but lithium will be included in their portfolio.
