

How much do garden solar panels cost?

Garden solar panels function like traditional solar panels but are ground-mounted instead of roof-mounted and placed in your garden. They are typically more expensive than regular solar panels, costing approximately £11,700 for a 4kW system, but can help you save £660 annually on electricity costs.

How much do solar panels cost in the UK?

Without factoring in solar installation costs, solar panels can cost anywhere between £150 and £500 each. They vary in price based on their wattage, size, use case, and panel type. One of the most common sizes in 2023 for a household in the UK is a 4kW solar panel system.

How much do ground-mounted solar panels cost?

Ground-mounted solar panels are the most expensive option. A 10 panel system large enough to power an average three-bedroom house will cost around £7,026 to buy and install. Take a look at the table below to see how much ground-mounted solar panels cost depending on the size of the property.

How much do solar-powered garden lights cost?

Solar-powered garden lights usually cost between £30 and £200. Large roof-mounted solar panels cost a lot of money, and not everyone has the finances or roof-space for them. Luckily, there are lots of different ways to use solar panels in your garden, and most aren't that expensive.

What is a small Solar power system?

Each small solar power system is a complete kit that includes solar panels, inverter, batteries and the cables and fixings necessary to generate renewable energy. Our small solar panel kits are DIY but Sunstore can arrange professional installation for you if you prefer. This product has multiple variants.
