

Which labels are suitable for PV systems?

Suitable labelling for PV systems as required by MCS guidelines. Labels are printed on self adhesive vinyl and are designed to remain legible and in place throughout the design life of the system. The Wind & Sun label packs are suitable for typical domestic systems or labels are available in sheets of one type.

Do you need a label for a solar PV installation?

Pack containing labels needed for a typical domestic solar PV installation. Dual supply labelling should be provided at the service termination, meter position and all points of isolation between the PV system and supplier terminals to indicate the presence of on-site generation and indicating the position of the main a.c. switch disconnect.
