Razzi is a strong solar energy storage system that converts solar energy into stand-alone power for your home. There is no need for you to be without power at a critical time with the clever Solar Home Battery. The Power Station collects energy from many sources, stores it in rechargeable lithium-ion batteries for later use.

The formula to calculate the solar power is:
$$\text{Daily Power Output (kWh)} = \text{Irradiance} \times \text{Area} \times \text{Efficiency}$$
 where: (Irradiance) is the daily solar irradiance in kWh/m²; (Area) is the area of the solar panel in square meters (Efficiency) is the efficiency of the solar panel
