

What is a plug-in solar power kit?

Plug-In Solar offer Do It Yourself (DIY) Grid-Tied solar power kits, that allow you to generate free electricity that you can use to power appliances in your home. Plug In Solar uses Solar panels to generate electricity from sunlight.

How does plug in solar work?

The beauty is in the simplicity. Plug In Solar uses Solar panels to generate FREE ELECTRICITY from sunlight. This electricity is converted from DC to AC by a Micro Inverter, and fed into your mains electric circuit, allowing you to power the household appliances connected to your mains supply.

What is plug in solar?

Please try again later. Plug In Solar is a Do It Yourself (DIY) Grid-Tied solar power kit, which allows you to generate FREE ELECTRICITY you can use to power appliances in your home. No need for an EPC inspection, MCS Certification or The Smart Export Guarantee (SEG).

Do you need an EPC to install plug in solar?

No need for an EPC inspection, MCS Certification or The Smart Export Guarantee (SEG). Plug In Solar kits include everything you need to start saving money on your electricity bills, WITHOUT government incentives. The beauty is in the simplicity. Plug In Solar uses Solar panels to generate FREE ELECTRICITY from sunlight.

Are plug and play solar panels a gimmick?

plug and play or plug in solar is more a gimmick than a realistic installation as you would cut the plug and fit the system with additional protection for a UK installation, that's no different to any other standard installation and it can be a little more costly here too.

How much energy does a plug-in solar kit produce?

A 2.24kW (2240W) Plug-In Solar kit, which consists of 7 x 320W Solar panels, can produce enough energy (1,972kWh), in one year, to power ALL of the following: Which Plug-In Solar Kit Should I Choose? When choosing a Plug-In Solar Kit, you must consider the following factors:

Plug-In Solar is a Do It Yourself (DIY) Grid-Tied solar power system, which allows you to generate FREE electricity to power your appliances. Plug-In Solar kits include ALL the equipment you need to start saving money on your electricity bills, WITHOUT the need for government incentives.
