Depending upon the distance of the wall to the boundary of an adjacent property, that wall may need to provide fire resistance properties to prevent the spread of fire. If the exterior walls where the rendering is taking place are load-bearing, either by supporting a roof or storey above, then fire resistance is also required. Thermal Insulation

The average cost of external insulation render is between £3,000 and £5,500 for a typical three-bedroom terraced house. Insulated rendering provides some thermal benefits, but it is most effective when ...
