"By leasing solar, Americans can avoid upfront costs and could start saving immediately," says Wyatt Semanek, Public Relations Manager at Sunrun, a U.S.-based provider ranked on our best solar ...

In the good old days of a high Feed-in Tariff there were so called 'rent-a-roof' schemes where a company would install solar panels free of charge, the house owner would get the benefit of the electricity they generated but the rent-a-roof company would get the benefit of the FIT for electricity and would own the panels.. On that basis I would say that a tenant ...

Solar Panel Lease The new way to reduce your carbon foot print and save money on your energy bills. No up front costs. Using a solar panel lease you can get a full solar PV and battery system installed from just £75* per month including full monitoring, servicing and repair for the whole period of the lease.

Thank you for your question. Unfortunately, the installation of solar panels is classed as a Capital Expense. There are no provisions to claim relief for this against rental income for this current tax year, Landlords Energy Savings Allowance is only available for qualifying expenditure between 6 April 2004 and 5 April 2015.

This means you can save a lot of money when purchasing a solar panel system right now. ... Yes, tenants can benefit significantly from solar energy installations in rental ...

It's your decision, but do get your solicitor to check that you actually own the panels, and that is not a "rent a roof" arrangement. If it is the latter, you cannot legally remove the panels without the prior approval of the owner. It all seems a little odd. If you own the panels, the MCS Certificate should be lodged with the house deeds.

If you think the rent-a-roof scheme sounds too good to be true, it probably is. ... more and more people are looking to invest in solar energy as a way of saving money and reducing their energy bills, making the prospect of free solar all the more tempting. ...
