

Sika®; SolarMount-1 (SSM1) - an aerodynamic, non-penetrating and lightweight mounting system specially designed for the installation of rigid photovoltaic (PV) panels to flat rooftops, ...

Solar Thermal. Solar water heating systems, or "solar thermal" systems, uses heat from the sun to warm domestic hot water. A conventional boiler or immersion heater can be used to make the water hotter, or to provide hot water when solar energy is unavailable. Solar water heating systems use solar panels, called collectors, fitted to your roof.
