

What are the suppliers of mobile energy storage vehicles in Buenos Aires

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

Where will lithium batteries be made in Buenos Aires?

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

Does Y-TEC sell lithium in Argentina?

In the case of lithium, Y-TEC signed a contract with American company Livent, which extracts the mineral in Catamarca and, for the first time, sold part of its production in Argentina. According to Salvarezza, for industrialization to grow in scale, part of the production ought to be sold on the local market.

Who makes electric cars in Chile?

Chile has chosen Byd, the world's largest manufacturer of electric cars, to design a project to produce 50,000 tons of LFP-type cathodic material, which is a part of the battery. Byd has also just purchased Ford's former Brazil factory to produce electric cars. "Our neighbors are pushing us to move faster," he said.
