How do I choose a solar panel brand?

It's unusual to choose a specific solar panel brand at the outset. Instead you're likely to encounter different brand options as you get quotes from different installers. Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands.

What are the cheapest solar panels?

At about £190 per solar panel, Sharp NU-AF solar panels are some of the cheapest solar panels on the market. While they are some of the best solar panels for a lower budget, there are also some disadvantages when it comes to Sharp NU-AF solar panels. For instance, they have a higher performance degradation rate of 0.7% per year.

Which solar panels are best for your home?

Higher-efficiency panels can generate more power in a given space, making them ideal for homes with limited roof space. Monocrystalline panels typically offer the highest efficiency rates, often exceeding 20%, while polycrystalline and thin-film panels usually have lower efficiency rates.
