@prospectorland 8.8 kW panels and 2 powerwalls in Mauritius will probably take you off grid. However, with electricity prices quite low comparatively in Mauritius, it does not make sense yet. If you are getting an EV in Mauritius and planning to do a lot of driving around, it might make sense depending on future fuel price rises.

CEB's highest domestic electricity price is Rs 8.77 per kWh (as of 2020) Taking an actual mid-range electric car which has a battery of 52 kWh, the cost of charging the car from zero to full charge is therefore Rs 456. As per the manufacturer specifications, this full charge translates to a maximum range of 395 km.

Founded in 1980, it is specialized in the R& D, production and sales of lead-acid batteries alongside with the production of power lithium-ion battery and waste battery recycling as the supplement.
