

What are lithium ion batteries?

For the purposes of the DGR they are separated into lithium metal batteries and lithium-ion batteries. Lithium metal batteries are generally primary (non-rechargeable) batteries that have lithium metal or lithium compounds as an anode. Also included within lithium metal are lithium alloy batteries.

Are lithium ion batteries included in equipment?

This applies to UN 3481 Lithium ion batteries contained in equipment(see Section II of Packing Instruction 967) and UN3091 Lithium metal batteries contained in equipment (see section II of Packing Instruction 970),except that button cells installed in equipment (including circuit boards) need not be considered.

Where can I find information about lithium and sodium ion batteries?

The provisions of the DGR with respect to lithium and sodium ion batteries may also be found in the IATA Battery Shipping Regulations (BSR) 12th Edition. In addition to the content from the DGR,the BSR also has additional classification flowcharts and detailed packing and documentation examples for these batteries.

Are lithium batteries rechargeable?

Lithium batteries fall into two broad classifications; lithium metal batteries and lithium ion batteries. Lithium metal batteries are generally non-rechargeable and contain metallic lithium. Lithium ion batteries contain lithium which is only present in an ionic form in the electrolyte and are rechargeable.

What is a section 2 lithium battery?

Section II applies to lithium metal cells with a lithium metal content not exceeding 1 g and lithium metal batteries with a lithium metal content not exceeding 2 g packed in quantities not exceeding the allowance permitted in Section II,Table-968-II.

How many G is a lithium battery?

for a lithium metal or lithium alloy battery,the aggregate lithium content is not more than 2 g. Section IB requirements apply to cells and batteries packed in quantities that exceed the allowance permitted in Section II,Table 968-II.

Lithium Battery Course for Section II "Adequate Instruction" - Course ELLB2. This short online course meets the requirements for those shipping small lithium batteries and cells, such as those found in laptops, mobile phones and watches.

The words "Lithium ion batteries in compliance with Section II of PI 965-CAO" must be included in AWB Please note: RU-03: UN 3480, Section IA of PI965 and UN 3481, Section I of PI966 and PI967 is accepted for carriage upon prior approval of the airline. Request for approval must be send via email to dg@airbridgecargo

ACCEPTANCE CHECKLIST FOR LITHIUM BATTERIES SECTION IB (For use when a Shipper's Declaration for Dangerous Goods is not required) ... One "lithium battery document" with the required information accompanying the consignment ## Quantity 7. The gross weight of each package does not exceed 10 kg G/package (PI 965 IB); or

Battery > 0.3g but ≤ 2g lithium UN3091 | PI969 [ELM] Lithium Metal Cells / Batteries Packed with Equipment UN3091 | PI970 [ELM] Lithium Metal Cells / Batteries Contained in Equipment Shipper's Declaration for Section II Lithium Cells / Batteries WARNING: LITHIUM BATTERIES THAT HAVE BEEN RECALLED BY THE MANUFACTURER FOR SAFETY REASONS MUST ...

What are the various types of lithium batteries? Lithium batteries fall into two broad classifications; lithium metal batteries and lithium ion batteries. Lithium metal batteries are generally non ...

LITHIUM BATTERIES GUIDANCE. Last updated January 2024. DHL Business Unit - Excellence. Simply delivered. UNCLASSIFIED (PUBLIC) Slide 3. 2024 Lithium Batteries Regulations. ... UN3480, Lithium Ion Batteries / Cells - PI965 Section IA (continuation). Documentation: Shipper's Declaration is required. The following statement must be mentioned ...

Air Transport of Section II Lithium Batteries Created by: TNT Express Operations Excellence - Dangerous Goods Department Version: 01 April 2016 (based on 57 th /2016 IATA Dangerous Goods Regulations Amendment II) Page 3 of 6 General requirements for lithium batteries as per appropriate Packing Instructions:

"Lithium ion batteries in compliance with Section II of PI966" No Requirements "Lithium ion batteries in compliance with Section II of PI967" ... Note 4: Lithium batteries packed according to PI965 Section IA and PI966 & PI967 Section I are not accepted in Time Definite International when transported via road to/from an ADR member state.

NOTE: FedEx Paks cannot be used as outer packaging for lithium batteries. However, FedEx-branded boxes or tubes may be used as outer packaging for lithium batteries prepared under Section II of the relevant packing instructions of the IATA DG Regulations.

UN3480 and UN3090 Section II, lithium batteries without equipment in the TNT Air Network are strictly forbidden. Air Transport of Section II Lithium Batteries Created by: TNT Express Operations Excellence - Dangerous Goods Department Version: January 2019 (based on 60

Air Transport of Section II Lithium Batteries Created by: TNT Express Operations Excellence - Dangerous Goods Department Version: 02 November 2015 (based on 57th /2016 IATA Dangerous Goods Regulations) Page 3 of 6 Cells and batteries identified by the manufacturer as being defective for safety reasons, or that

Lithium-ion batteries are the predominant type of rechargeable battery used to power the devices and vehicles that we use as part of our daily lives. Many millions of lithium-ion batteries are in use and in storage around

the world. Fortunately, fire related incidents ... (Section 3.3 Lithium-ion batteries), 2021

Introduction to IFC Section 320 for Lithium Battery Storage SafetyAs the use of lithium-ion and lithium-metal batteries grows across industries, so does the need for stringent safety measures. The 2024 International Fire Code (IFC) introduces Section 320, which provides guidelines to protect facilities from fire risks associated with lithium ...

Lithium ion and lithium polymer cells or batteries - 2022 IATA DGR UN3480 - PI965 UN 3481 -PI966 UN3481 - PI967 Section PI965-Section IB PI966 - Section II PI967 - Section II Description Lithium Cells / Batteries loose (bulk) Important: State of Charge (SoC) of the battery/ cell must not exceed 30% Lithium Cells/Batteries packed with equipment

What are Section II Lithium Batteries? Section II lithium batteries include lithium metal cells with a lithium content of no more than 1 g, lithium metal batteries containing no more than 2 g ...

General explains requirements which are valid for all lithium batteries; Section I refers to fully regulated Lithium Batteries and Cells and Section 2 refers to partly exempt Lithium Batteries or ...
